

POSTGRADUATE INSTITUTE OF SCIENCE (PGIS), UNIVERSITY OF PERADENIYA

Workshop on Mineral Sands of Sri Lanka, their Value Addition and Future Trends

PGIS is offering many postgraduate programmes, short courses and workshops on various subjects. It has the feeling that the rich deposits of mineral sands in Sri Lanka should have a better future. Therefore, the PGIS has decided to share and disseminate the knowledge on mineral sands through the above workshop.

The workshop has been designed to deal with all the necessary branches related to mineral sands. The programme will include the basics of mineral sands from the definition, their composition, occurrence in the world and in Sri Lanka, economic deposits, exploration and evaluation mineral sand deposits, grade and type of their deposits in various countries, mining and mineral sand extraction technology, mining equipment, uses of mineral sands and value addition.

Target groups:

Professionals, researchers, those involved in the mineral industry, entrepreneurs, teachers and any other persons interested in promoting mineral sand industry.

Closing Dates of Applications: Interested applicants, please submit your application on or before **15th September 2018**.

Venue:

PGIS, University of Peradeniya.

Date: Friday, 28th September 2018, From 8.00 a.m. to 5.00 p.m.

Through presentations, demonstrations and discussions

Course Fee: Rs. 2500.00

*This includes the cost of study materials, meals (lunch and refreshments) and transport facilities etc.

Application Forms:

Application forms can be downloaded from the PGIS Website or obtained from the PGIS Office. The completed application forms along with payment of course fee (by cheques) drawn in favour of "Postgraduate Institute of Science" should be sent to the "Coordinator, *Workshop on Mineral Sands and Value Addition, Postgraduate Institute of Science (PGIS), University of Peradeniya, P.O. Box 25, Peradeniya*".
